Subject: FW: LSL Inventory Funding Sources

Karen,

Just FYI on possibilities for funding LSL inventories and some provisions that could be very helpful here using set asides. We would likely need further coordination to help with visibility of the project, but this could be a potential source.

Leslie

Subject: LSL Inventory Funding Sources

Leslie and Karrie,

I spoke with staff today about using the DWSRF to conduct a LSL inventory in Clarksburg. In WV, all infrastructure projects (water, wastewater, roads, airports, etc.) go through the state's Infrastructure Jobs Development Council (IJDC). A basic application is submitted to them and they decide where it should go. They receive state funding and can provide a broad range of support. They meet monthly to review applications and can re-direct, fully-fund, or co-fund projects. If they think it should go to the DWSRF, it is directed to WV DHHR and they would request a second application. The IJDC could be a potential source of funding.

Ex. 5 Deliberative Process (DP)

Let me know if you have questions or need more information. Thanks, Amie
